

wav_io.h

```
graph LR; wav_io_h[wav_io.h] --> stdio_h[stdio.h]; wav_io_h --> speex_types_h[speex/speex_types.h]
```

The diagram illustrates the dependencies of the `wav_io.h` header file. It is represented as a black box on the left. Two blue arrows originate from its right side: one points diagonally upwards to a white box labeled `stdio.h`, and the other points diagonally downwards to a white box labeled `speex/speex_types.h`. Both target boxes have a thin grey border.

stdio.h

speex/speex_types.h
